

Public School Assemblies

With Kolby and Mary Beth King
Impacting Students Across America

Dear School Administration,

Kolby King is available to share with the students at your school. Kolby has been a ventriloquist and illusionist for over 30 years and has been leading school assemblies for the past two decades.

These assemblies mix **humor, ventriloquism and illusions** with a positive message that lasts approximately 30-35 minutes.

There are two public school presentations currently available:

- **Elementary** - Kolby and his puppet-friends, "Jay" and "Dr. Love," teach children about the importance of respecting themselves, others and those in authority. Children learn that they are special and that they can treat others right. This assembly deals with both self-worth and bullying.
- **Jr. High and High School** - These assemblies focus on life-choices to challenge students to resist negative peer pressure and to make choices that will "make" and not "break" their futures.

Kolby King oversees 330ministries, a Christian resource company, and is a nationally known speaker and book author. He has led public school assemblies since the 1990s and is fully aware of the laws regarding the separation of church and state and will fully abide by those laws. No mention concerning "God" or "religion" will be made during any public school presentations. These school assemblies are completely non-religious.

Because 330ministries is a non-profit organization and coordinates with other organizations in your community, we offer these assemblies to your school free of charge.

For more information or to see what principals are saying about these assemblies, visit
